What are the odds that Dr Tuminez, President of UVU, was also on Mitt Romney's Senate Advisory Council?

+ Mitt Romney also spoke at the UVU Commencement a few years back.
+His brother, David, also has lectured there as he is a professor of PoliSci at BYU.

Mitt Romney has been very close to Bibi since the 70's when they worked together at BCG.

My Father, A True Union Pacific Man!
George Zinn
I am proud to be the son of a great Union Pacific father!
My daddy, Overton Zinn, worked at the Ogden Yard Office in magazine shipping for probably 40 years. He was rarely late for work, and worked harder and was more dedicated to his job than any man I've known. Daddy was a true role model for me. He died when he was just 62 years old, on Oct. 16, 1966, so we never enjoyed his retirement years.
Daddy's pension helped get me through my first years at the University of Utah. He would be proud of this 150th Anniversary, and I'm sure he would be recognized in the community of Ogden, Utah, as one of the stalwart employees of the company.

MCKINNEY, Texas – May 2, 2023 – Aiden Technologies, the provider of modern, intelligent software packaging and deployment for Microsoft Windows, has secured $4.5 million in its second round of seed funding. The co-lead investors in this round of funding are Right Side Capital Management and Blu Venture Investors. Right Side was also the largest investor in Aiden's initial round of funding in 2021, when it raised its initial $2.9 million seed funding.
"We are excited at the incredible growth potential for Aiden and have seen first-hand what a game-changer the company is for organizations running on Windows and struggling with the complex process of fully adopting tools for endpoint management," said Dave Lambert, Managing Director of Right Side Capital Management. "Customers of Aiden are able to deploy and maintain Microsoft computers far more successfully, overcoming frustrating challenges and needless complexity that bogs down so many attempts at full-scale implementation of Microsoft Modern Workplace."
"Aiden has a dramatic impact on the cybersecurity posture of organizations that rely on Windows. Criticism of Carolyn Feinstein's DOJ role amid her husband's ICEBlock app primarily originated from far-right figures like Laura Loomer and Tom Homan, who highlighted a conflict of interest. Mainstream Democrats and left-leaning outlets, such as The Daily Beast, have condemned the firing as partisan retribution, showing broad disagreement with the far-right's stance.

Carolyn Feinstein was terminated from her DOJ forensic accountant role on July 18, 2025, officially for "lack of candor" after an investigation revealed her minority stake in All U Chart, Inc., which owns the IP for the ICEBlock app—seen by DOJ as endangering ICE agents by aiding evasion. Feinstein claims it was political retribution for her husband's app creation, prompted by far-right calls for her firing. Sources: DOJ statement, Daily Beast, Newsweek.

I work at Elevance Health (formerly Anthem), one of the largest health insurance companies in the U.S. Our company recently hired CTO named Ratnakar, who is currently under SEC investigation for illegally outsourcing technology at Nike.
He appears to be engaging in similar activities here at Anthem by outsourcing work to UST, an Indian consultancy.
Could you please consider posting about this situation to help raise awareness? This issue potentially involves the health data of millions of Americans.

Murray, founding CEO of the Association for Community Affiliated Plans (ACAP), was re-elected as treasurer.
"I am honored to lead the Board of Directors at such a pivotal moment in the Alliance's history," shared Tanisha Carino. "The role of the Alliance as the go-to resource for unbiased health policy information has never been more critical. I look forward to ensuring our ability to deliver a balanced exchange of evidence, experience, and multiple perspectives to address future challenges and opportunities."
Tanisha Carino brings over 20 years of experience driving growth and impact across multiple healthcare leadership positions in the government, private, and non-profit sectors. She has been a member of the Alliance's Board since 2017. Currently a partner at Brunswick, she helps clients navigate the interconnected financial, political, and social worlds to build trusted relationships with all their stakeholders.
Elizabeth Hall brings a wealth of public and private experience to the Alliance Board of Directors. At Elevance Health, she and her staff work closely with business unit leaders and senior executives to develop enterprise positions on federal and state legislation. She previously served in positions at CMS, HHS, and within the Office of U.S. Senate Majority Leader William Frist, M.D. (R-TN), a former Alliance Congressional honorary co-chair.
In addition to new leadership, the Alliance welcomes Demetrios Kouzoukas, partner at Team8 and director of the Medicare Reform Initiative at Paragon Health Institute, and Marc Samuels, J.D., MPH, president and CEO of ADVI Health, to the Board of Directors.
